180, UDYOG VIHAR PHASE II, GURGAON

Walk-in interview for project position

Recruitment Notice No: THS/RN/11/2012

TRANSLATIONAL HEALTH SCIENCE AND TECHNOLOGY INSTITUTE (THSTI) is an autonomous Institute of the Department of Biotechnology under the Ministry of Science and Technology, Govt. of India. THSTI has been developed as a part of the interdisciplinary Health biotech Science cluster to be located at Faridabad which is a part of the National Capital Region. THSTI is designed to be a dynamic and interactive organization with a mission to conduct innovative translational research and develop research collaborations across disciplines and professions to accelerate the development of concepts into tangible products to improve human health. The other members of the cluster include The Regional Centre of Biotechnology (RCB) under the aegis of UNESCO and the NII with which the THSTI will have a seamless collaboration to achieve the interdisciplinary expertise. The cluster will have access to the state of the art experimental animal facility and the platform technology center for the sophisticated instrumentation. The permanent laboratories of the centre will come up in Faridabad within 3 years. The interim laboratories of the centre are functioning from Gurgaon in the South of Delhi area with adequate housing, transportation and schooling facilities. Campus housing may be available when the centre moves to Faridabad.

Regional Centre for Biotechnology (RCB) an institution of education, training and research was established by the Department of Biotechnology, Government of India under the auspices of UNESCO as a category II institution. The Centre is aimed at focussing on multi-disciplinarily to germinate innovation in Biotechnology. It is earnestly hoped that the international nature of this Institute and the partnership with UNESCO will create access to new ideas in education and training on a worldwide basis.

The THSTI & RCB under the aegis of UNESCO are part of the NCR Biotech Science Cluster (BSC) being set up by the Department of Biotechnology on a 200 acre plot of land at Faridabad in Haryana, with a view to provide strategic support to National & Regional Research organizations in creation and integration of scientific, technical & business related frameworks with the objective of accelerating discoveries, translating discoveries to validated products and reaching product technologies to enterprises with a view to taking such product to markets to

address affordable solution in the areas of agriculture and health care, the two important components of sustainable growth of national economy.

The cluster will have access to the state of the art experimental animal facility and the technology platform center for the sophisticated instrumentation. The permanent laboratories of the centre will come up in Faridabad within 2 years. The interim laboratories of the centre are functioning from Gurgaon with adequate housing, transportation and schooling facilities.

Walk-in Interview will be held to fill up the following positions to work in a collaborative project under Regional Centre for Biotechnology and Translational Health Science & Technology Institute to be posted at General Hospital, Gurgaon.
