

Translational Health Science and Technology Institute

(An Autonomous Institute of the Department of Biotechnology, Govt. of India)

496, Udyog Vihar Phase III, Gurgaon – 122 016

Paediatric Biology Centre

RECRUITMENT FOR SCIENTIFIC POSITION

Recruitment Notice No. THS / RN /12 / 2013

The Department of Biotechnology (DBT), Ministry of Science & Technology (Government of India) has established the Translational Health Science and Technology Institute (THSTI), an autonomous institution, as a part of the interdisciplinary Biotech Science Cluster at Faridabad in the National Capital Region. The permanent campus and buildings of THSTI are coming up at Faridabad and will be completed within one year. The Institute is currently functioning from interim facilities in Gurgaon. The institution is designed with a mission to conduct innovative translational research. THSTI is organized into several niche centres based on their research focus viz Vaccine and Infectious Disease Research Centre (VIDRC), Pediatric Biology Centre (PBC), Centre for Biodesign & Diagnostics (CBD), Clinical Development Services Agency (CDSA), Policy Centre for Biomedical Research (PCBR), Centre for Human Microbial Ecology (CHME) and Drug Discovery Research Centre(DDRC).

This recruitment notice is for the Pediatric Biology Centre (PBC) which has the mandate to study (a) human perinatal biology; (b) maternal, fetal, neonatal and childhood infections; (c) nutritional biology and (d) other childhood illness.

Applications are invited from suitable candidates for the following positions:

Sl. No.	Name of the post / Pay Band + Grade Pay No. of position	Qualifications and experience	Job description	Age limit
1	Scientist C (Clinical/ non-clinical / statistical) Rs. 15,600-39,100 + GP Rs. 6,600 One	For Clinical candidates: ESSENTIAL: MD (Paediatrics) with at least two years of academic or work experience post MD <u>including at least</u> 1 year experience in clinical or population research OR MD (Paediatrics) and MPH (Epidemiology) with at least one year of academic post experience in clinical or population research. OR M.Sc. (Biomed statistics) and MPH (Epidemiology) with 3 years of academic or work experience post MPH <u>including at least</u> 1 year experience in clinical or population research OR M.Sc. (Biomed statistics) and PhD including 1 year of experience in clinical and population research. For non-clinical candidates: 1. ESSENTIAL: Ph.D. with minimum of one year post-doctoral experience or M.D. with two years post-M.D. research experience in genetics, immunology, cell biology, molecular biology, biochemistry, or biomedical engineering, with hands-on experience in using state-of-art flow-cytometers for multi-colour analysis and sorting	Conduct of interventional and observational clinical or population studies. Supervision of research staff. Supervision of data collection, Coordination of links between laboratory & clinical population groups. Preparation of plan of analysis for clinical/population studies. Supervision of data management and data analysis Ability to handle laboratory research work independently, work as a part of a large team of investigators, set up new assays/techniques and execute them reproducibly	40 years

		For statistical candidates: ESSENTIAL: PhD or corresponding degree in mathematics, statistics, biostatistics, epidemiology or similar quantitative disciplines. . One year of R&D experience.	Provide scientific statistical input to project planning, prepare statistical section for clinical study protocols, supervise data collection, processing and analysis, improve methods and ideas of data collection, processing and analysis
